

# MESOSPHERE SERVICES: COMPETENCY CENTER

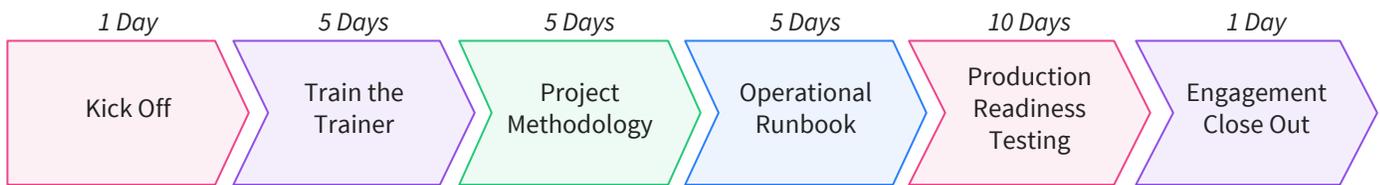

## Overview

Mesosphere provides a range of consulting services to help customers accelerate their adoption of Mesosphere DC/OS, a production-proven platform to easily deploy and elastically scale containers and big data services seamlessly across on-premise hardware and and public cloud instances. Mesosphere works closely with our customers to ensure they are successful designing, deploying and operating a DC/OS environment. Access to Mesosphere’s knowledge, experience and operational guidance allows customers to avoid common pitfalls and decrease time to market.

## DC/OS Competency Center

Through a combination of consulting and instruction-based education delivery, Mesosphere establishes a Competency Center within a customer’s organization. The Competency Center approach involves the Mesosphere team and the customer working together to create a high level of competency and institutional knowledge, enabling an organization to be self-sustaining with Mesosphere DC/OS.

Through a 40-day engagement involving Solution Architect consulting sessions, project management, and education courses, the Competency Center enables a core group of customer architecture, development, and operations leaders to act as an internal DC/OS authority.

	1 Day	5 Days	5 Days	5 Days	10 Days	1 Day
	Kick Off	Train the Trainer	Project Methodology	Operational Runbook	Production Readiness Testing	Engagement Close Out
<b>Activities</b>	<ul style="list-style-type: none"> <li>Bring team together to define the role of the project</li> <li>Define comm. cadence and roles &amp; resp.</li> </ul>	<ul style="list-style-type: none"> <li>Enable selected client resources to teach Mesosphere education classes across the client’s organization</li> </ul>	<ul style="list-style-type: none"> <li>Provide tools and techniques necessary to integrate Mesosphere practices</li> </ul>	<ul style="list-style-type: none"> <li>Craft a client-centric operational run book to be used by Mesosphere operators</li> </ul>	<ul style="list-style-type: none"> <li>Teach client’s group members best-practice consulting and techniques for testing</li> </ul>	<ul style="list-style-type: none"> <li>Review the activities executed during Competency Center engagement</li> </ul>
<b>Outcomes</b>	<ul style="list-style-type: none"> <li>Project Charter</li> </ul>	<ul style="list-style-type: none"> <li>Access to instructor &amp; materials</li> <li>Enablement of up to 4 people to teach and deliver courses internally</li> </ul>	<ul style="list-style-type: none"> <li>Methodology</li> <li>Project Plans</li> <li>Project Artifacts</li> </ul>	<ul style="list-style-type: none"> <li>Operational Run Book</li> </ul>	<ul style="list-style-type: none"> <li>At-Scale Perf. Testing Guide</li> <li>Disaster Mitigation Testing Guide</li> <li>1 Cycle of Prod. Readiness Testing</li> </ul>	<ul style="list-style-type: none"> <li>Engagement Summary Document</li> </ul>

## About Mesosphere Enterprise DC/OS

Mesosphere brings enterprises the power of cloud native technologies, with the control to run on any infrastructure — datacenter or cloud. Mesosphere DC/OS is the only production-proven platform that powers both modern app components — containers and data services — so businesses can accelerate time to market with confidence, and save. Based on Apache Mesos, DC/OS is trusted by Verizon, Autodesk, Charter, Esri and many other Fortune 1000 companies.
