

MESOSPHERE SERVICES: DC/OS OPERATE

Overview

Mesosphere provides a range of consulting services to help customers accelerate their adoption of Mesosphere DC/OS, a production-proven platform to easily deploy and elastically scale containers and big data services seamlessly across on-premise hardware and and public cloud instances. Mesosphere works closely with our customers to ensure they are successful designing, deploying and operating a DC/OS environment. Access to Mesosphere’s knowledge, experience and operational guidance allows customers to avoid common pitfalls and decrease time to market.

DC/OS Operate

This 8-day engagement focuses on the operations and administrative activities to effectively operate the Mesosphere DC/OS platform.

Typical Activities:

- Perform an operations best practice evaluation
- Review centralized logging & stats and capacity utilization, provide upgrade recommendations, and validate supported software versioning
- As needed, deliver the “DC/OS Enterprise Operations” training program

Deliverables:

- Operate Engagement Summary Document

About Mesosphere Enterprise DC/OS

Mesosphere brings enterprises the power of cloud native technologies, with the control to run on any infrastructure — datacenter or cloud. Mesosphere DC/OS is the only production-proven platform that powers both modern app components — containers and data services — so businesses can accelerate time to market with confidence, and save. Based on Apache Mesos, DC/OS is trusted by Verizon, Autodesk, Charter, Esri and many other Fortune 1000 companies.
